

## **Week 4 — Reading Scripture.**

### **Icebreakers:**

- Share some things you wished you could simply believe into reality.
- At what in life do you find yourself procrastinating?

### **Discussion Questions:**

1. What was the first scripture you learned and committed to memory?
2. Has anyone had to deal with foundation problems in a house, building, other structure, etc.? If so, explain. If not, imagine all the problems that come with a bad foundation.
3. Do you find it significant Jesus waits to say the things recorded in Matthew 7:24-27 last?
4. Compared to the entire writings within the Bible, how often to you read the very words of Jesus?
5. Garrett shared some tips for reading scripture in the message, but what other tips have you found out to be quite helpful?
6. How do you feel like you have progressed throughout this series? Or what steps are you taking/going to make progress in 2022?

### **Next Steps:**

- Read the Bible, yes. Start with Jesus, not Genesis.
- Start small: one chapter a day, a simple 3-4 day YouVersion Bible plan.
- Consistently do the small things now so that you can do the bigger things later.

*Do not merely listen to the word, and so deceive yourselves.  
Do what it says. — James 1:22*
